

09-Sep-2022

Dear Valued Customers & Partners,

We, Dresser Utility Solutions (DUS) and Yadav Measurements Pvt. Ltd. (YMPL) hereby announce the partnership between both the companies towards supporting the customers and installed bases in India for the Commercial & Industrial Gas Meters and Gas Regulators business.

As you may be aware from the previous communications from Itron and Dresser Utility Solutions (DUS) early this year, DUS has acquired Itron's European commercial and industrial gas meters and global gas regulators business. Itron's support, which ensured a smooth transition, ends by the end of August. It means that Itron will not be accepting any further orders for the above-mentioned products and services.

To be able to offer our valued customers consistent quality services, DUS and YMPL will work together utilizing the extensive experience, in-depth knowledge, resources and facilities that YMPL having in India and especially, the previous experience YMPL having with Itron products. The partnership will be supported by the DUS Global support & Training programs to ensure efficient execution of the service jobs as well as top quality support to our end-users.

As the Authorized Service partner, YMPL shall be responsible for all the technical services related activities such as calibration, repair & refurbishments, field services, support for installation & commissioning, training, and supply of spare parts for the service-related jobs. The partnership covers all the existing installations supplied by Itron as well as the future DUS installations and, YMPL will be working directly with our customers for receiving RFQs & Tenders, issuing Quotations, and accepting Purchase orders for the above-mentioned services for our C&I Gas meters and Regulators installations.

Following are the primary contact details:

Ganesh Chandra Badola, YMPL – [Ganesh.badola@yadavmeasurements.com](mailto:Ganesh.badola@yadavmeasurements.com)  
Reji Aboobaker, DUS – [Reji.Aboobaker@DresserUtility.com](mailto:Reji.Aboobaker@DresserUtility.com)

We, Dresser Utility Solutions and Yadav Measurements Pvt. Ltd., look forward to your future cooperation and support.
